Medicines and Medical Supplies for Kawan Sehat Health Agents

Primary Medical Care / Kawan Sehat Agents · East Sumba, Indonesia

BUDGET NEEDED

CHF 103

Total budget required to carry out this project.

CHF 103 funds one restock for a Kawan Sehat health agent in East Sumba. We replenish medicines and consumables about every three months and replace tools as needed. See the full inventory on pages 3 and 4.

WHAT THIS PROJECT AIMS TO CHANGE

- Medicines and consumables restocked.
- Damaged or missing tools replaced.
- Supplies for first aid and early referral.

01. WHY THIS PROJECT

When someone is injured or falls ill in a remote village, a Kawan Sehat health agent is often the first person a family can reach. A stocked kit gives the agent what they need to assess the patient, dress a wound or provide first-line care within their training and the programme’s protocols.

When an illness or injury needs further care, the agent alerts our medical team and helps connect the patient to a health centre or hospital. Our team helps arrange transport when needed. Having supplies on hand means the agent can give appropriate care while that referral is being arranged.

02. DELIVERY AND FOLLOW-UP

PLANNED ACTION

Check the agent’s stock and replenish medicines, dressings, gloves and other consumables. Keep usable thermometers, scissors, combs and other tools in service, and replace them when needed. The annex lists the supplies covered by the package.

BUDGET BREAKDOWN

Expense	Qty	Unit cost	Total
One restock package for one agent (IDR 2,250,000)	1	103	103
Total · CHF			**CHF 103**

RESPONSIBLE TEAM

Fair Future Foundation and Kawan Baik Indonesia, through Primary Medical Care.

INDICATIVE TIMETABLE

About every three months for this package.

HOW WE WILL REPORT BACK

Record the agent, delivery date and items replenished or replaced. Review shortages and the condition of reusable tools at the next stock check.
